## What is the Parent Project?

The Parent Project was created by a team of teachers, psychologists, law enforcement officers, and above all **parents!** The course is designed to meet the specific needs of parents raising strong willed or out-of-control adolescents. It is unique because it focuses on the prevention and suppression of the most destructive of adolescent behaviors.

## The Parent Project Philosophy

- ~ The vast majority of parents love and care about their children.
- ~ Parents are the integral key to successful children.
- ~ When given skills and the necessary support, parents can and will make the difference.

## The Parent Project curriculum was created to...

1. Help parents demonstrate their love for their children.
2. Allow parents to experience early success.
3. Encourage parents to stay with the process.
4. Teach intervention/prevention strategies for:
  - ~ School attendance and performance
  - ~ Drug and alcohol use
  - ~ Negative peer association
  - ~ Violence & Bullying
5. Improve parent/child relationship
6. Offer ongoing emotional and practical support for family.

*We have recruited professional community members who are trained to teach the program, and are now prepared to offer this invaluable course.*

## What's Involved?

- ~ A ten week course
- ~ One evening per week for three hours
- ~ A homework assignment each week
- ~ A parent manual to work in and keep
- ~ A certificate of completion at the end of the course
- ~ Cost is \_\_\_\_\_
